CAUTION: This is not a gentle word but when you think how little you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1868 for the cure and treatment of Consumption and Throat and Lung troubles without losing its popularity all these years, you will be thankful that we called your attention to Roscoe's German Syrup. There are so many ordinary cough remedies made by druggists and others that are cheap and good for light colds, perhaps, but for severe Coughs, Bronchitis, Croup—and especially for Consumption, where there is difficult expectoration and coughing during the night and mornings, there is nothing like German Syrup. The 32¢ size has just been introduced this year. Regular size 75 cents. At Henry W. May's, next door to Postoffice.

Republican Convention!

BELKNAP AND VICTORY!

Splendid Ticket for State Officers Nominated at Louisville.

Unbounded Enthusiasm—Ringing Platform Adopted—Harmony All Along the Line.

The Republicans at Louisville completed their nominations and present to the voters of the state the following admirable ticket—

For Governor—Morris B. Belknap of Louisville.
For Lieutenant-Governor—J. B. Wilhoit of Ashland.
For Treasurer—John A. Black of Harboursville.
For Auditor—George W. Welsh of Danville.
For Attorney General—W. M. Beckner of Winchester.
For Secretary of State—J. C. Speight of Mayfield.
For Superintendent of Public Instruction—Livingston McCartney of Henderson county.
For Commissioner of Agriculture—George Baker of Muhlenberg county.
For Clerk of the Court of Appeals—J. H. Newman of Kenton county.

At the instance of Governor Bradley the Convention on the previous day adopted a resolution endorsing the National Administration, and favoring the re-election of President Roosevelt in 1904.

Just previous to the nominations a ringing platform was adopted, that part referring to state issues being as follows—

The Republicans of Kentucky, in convention assembled, make the following declarations:

1. We declare for the right of every qualified citizen to a free ballot and a fair count, and the right of voters to an honest and orderly election in every precinct in this state, and to secure these rights and the restoration of political and legal equality we pledge ourselves to the enactment of such laws as will restore absolute electoral freedom.

2. We denounce the odious political machine rule now dominant in Kentucky, which destroys freedom, fetters enterprise, excludes capital, handicaps industry, discourages education and enables self-perpetuating bodies of political adventurers to control public affairs for private benefit, and encourages and protects abuse, contempt and hold violation of law. We appeal for an aroused public sentiment among all ranks of citizenship against continuation of these evils.

3. We condemn the reign of Democratic party hate and proscription, following the destruction, under forms of law, of political liberty and equality, and especially deplore the fact that, in this day of machine domination, the Courts of the state are appealed to and have become too often the theater for the display of Democratic partizan activity and for the upholding of political wrong and outrage.

4. We denounce assassination and lawlessness, whether in Serbia or Kentucky, as destructive of civilization, and call upon the enlightened intelligence of the state, through its legislative, executive and judicial agencies, to employ remedies to re-establish order and punish crime within our borders. We especially arraign the State Chief Executive for so exercising the pardoning power as to subvert political and partizan purposes, with the certain effect of encouraging crime by virtually rendering criminals of Democratic political faith immune from punishment.

5. We condemn the present administration in Kentucky for incompetency and grave impropriety in the conduct of public affairs; for preying upon and misappropriating public moneys; for laying tribute upon the legal pay of soldiers enlisted in the country's service; for the paying of unnecessary, unjust, exorbitant and illegal attorneys' fees, and we now demand such changes in the laws as will secure the state against similar wrongs in the future.

6. The present state administration has increased taxation of the people without corresponding increase in public benefits, and we believe and declare that the rate of taxation could be reduced to forty-five cents, and that the revenue so produced on present property valuations will be adequate for all purposes of our government economically administered, and in addition a surplus therefrom could be accumulated in four years to build and pay for a State house suitable for public uses and commensurate with the dignity and wealth of the Commonwealth.

7. We denounce the present system of management of the charitable and penal institutions of the state as being obsolete, inhuman and a reproach to our civilization. We condemn the carelessness and cruelty shown to have been repeatedly practiced in our asylums and demand the passage of laws that will place these institutions under nonpartisan management by which our helpless wards can be and will be protected against inhumanity and negligence and their condition improved by the substitution of trained and capable Superintendents and assistants for the brutal, inexperienced and incompetent employees appointed to their places as political reward.

8. We appeal to the united good citizenship of the state to aid us in re-establishing Kentucky, a Kentucky awakened, progressive and seeking the highest prosperity. Her commanding situation, her waterways, her resources and facilities for agriculture, manufacturing, mining and commerce demand wise laws, incorruptible and impartial Courts and competent and fearless executive officers.

9. The Republicans now seek the co-operation and support of all good citizens irrespective of past party connections, and pledge themselves in entering this campaign to restore to the state respect for law, the enforcement of law, honest and economical government should the people, by their votes, commit power to them.

Throughout the entire Convention the enthusiasm for ex-Governor Bradley showed plainly that he was the most popular Republican in the state, and even against his earnest protests he received nearly 400 votes for the nomination.

When the balloting closed Governor Bradley and Judge Pratt escorted Colonel Belknap to the stage, who accepted the nomination in a business-like address.

With such a ticket as that nominated by the Republicans, everything bids fair for a radical change in the administration of affairs in Kentucky—a consummation most devoutly wished for.

THERE'S no danger of any man being lynched or punished so long as he behaves himself.

DEMOCRACY comes high, but the people of Kentucky must have it. It costs nearly \$4,000 a month to keep the soldiers in Breathitt county.

FOR once and a wonder, The Cincinnati Post didn't throw six fits and a jamboree over a Kentucky lynching. Its account of the Flemingsburg hanging, written from that place, was strictly news matter, without any attempt at space-writing for the purpose of "sensational," and both correspondent and paper are to be commended.

KNAPP the strangler, who has five notches on his good right thumb for the poor women he had choked to death, thinks the law most cruel because it has said at Hamilton, O., that that he must give his one life for the five he has taken. And there are shysters who are already trying to defeat the law by digging up technicalities and juggling with the verdict of the jury.

JUDGE J. J. OSBORNE in a talk with one of his closest friends said that no one need have any fear about JETT and WHITE, the Breathitt county men, not getting a fair trial in Harrison county. The Judge said he had appointed J. B. LITTLE of Breathitt Special Bailiff, and that witnesses would be secured for both sides. While not saying so in plain words, Judge OSBORNE gave the impression that he fully appreciated the position he occupied in the public mind. LITTLE is the man Judge REDWINE appointed Elisor during the regular term of his Court at which JETT and WHITE were indicted.

It is now more that probable that President ROOSEVELT will not send a "protest" to Russia on account of the massacre of Jews at Kishinef. The Government of the Czar has politely notified this country to attend to its own internal affairs and to let the internal affairs of his Nibskoff alone. And the Czar is very much right.

THE ovation that was given Governor BRADLEY in the Louisville Convention must have made Senator DEBOE feel like thirty cents, with Fixer SAPP about the size of a tin nickel. Political heelers may be able to make a showing in the way of "putting up jobs" against honest men in Ward conventions, but when a sure-enough-man gets a hearing before the people he is mighty apt to be recognized. And BRADLEY is a sure-enough-man.

ONE thing is absolutely certain. The lawyers of the late Mr. THACKER of Fleming county are directly responsible for his death. By the verdict of two Juries of his peers he was in the Penitentiary at Frankfort, secure from thieves who break in and steal and from mobs who break out and hang. Not satisfied to "let well enough alone," his lawyers juggled around till they had him taken back to Flemingsburg for a third trial—and the mob did the rest.

The hair-splitting lawyers of Cincinnati are already discussing the "five points" in the verdict consigning KNAPP, the strangler of five women, to the electric chair. When the Jury returned its verdict it added the words—"We make no recommendation for mercy." And why shouldn't it say so? As the villain had killed five women—three of whom were his wives—it looks like the Jury should have expressed the opinion that he ought to be shot once, hanged thrice and electrified at least half a dozen times. But the simple expression of the Jury that it would not recommend him to the mercy of the Court, is made use of by juggling shysters as a reason for a new trial. Does TOM CAMPBELL still do business at the old stand, and are the people of Hamilton ready to have a Court house burning such as Cincinnati had? It is lawyers of this class that breed mobs.

A TRIP Through the Wire Grass Fields of America!

An Industry Effecting An Annual Saving of Some \$10,000,000 to American Farmers. After Five Years of Extensive Experimenting a Perfect Product is Offered for Sale.

The first headline succinctly states the subject of this sketch; the second aptly states the cause leading up to the writer's visit to the wilderness, and the third headline an opinion the result of personal investigation.

Leaving Maysville upon the early C. and O. train Wednesday morning, July 11th, after a long and most arduous trip. Leaving the nearest railroad station in a spring wagon, we drove over the roads made by the American Grass Twine Co. straight into the wilderness. Upon all sides of these "made" roads were reclaimed lands—lands formerly lakes and which by an extensive system of drainage had become sufficiently firm to bear up men or beast with proper precautions. Proper precautions are bog shoes for horses and rubber boots for men. Bog shoes are 18-inch square blocks of wood fastened to the iron shoes of the horses.

In these reclaimed lands grows wire grass, the most peculiar product of mother earth, growing in land on which nothing else will grow; growing with a jointless stem and without a branch; growing in land without mineral substance, wire grass is without nutritive substance and is absolutely impervious to insect or beast.

Green or dry, wire grass is useless as food. This grass is of a rapid growth, and as many as three or four crops can be cut each year. No artist can transfer to canvas the appearance of these grass fields. Walking over one of these fields it appeared to the writer that he was walking over a lake. With each step taken he could feel the earth tremble, and a slight breeze gave to this five-mile field the appearance of a lake, the waves of which were rolling into waves. This wire grass growth is very luxuriant, and growing in it does without a branch or leaf, the wave effect created by a slight breeze is marvelous. While admiring this wondrous work of nature, assisted by man, the field trembled violently as in an earthquake, but the cause was only the passing of heavy draft teams wearing bog shoes and drawing reaping machines, with which came after acre of wire grass was being cut.

The wire grass, after being cut and lying on the marsh (from which the water has been drawn off by the company's system of drains, etc.) until wilted, is collected and bound into bundles by another especially constructed machine called a glower. Travelling these marsh grass fields are "made" roads traveled by specially built wagons having six and eight-inch tires. Into these wagons the bundles of wire grass are loaded and hauled to sheds and there loaded in an especially constructed machine into bales about twice the size of our baled hay. From these sheds immense teams haul the baled grass over company-built roads to the nearest railroad station, at all of which stations the company has warehouses 800 feet by 60 feet, into which the bales of grass are placed, there to await cars to transport it to St. Paul, Minn. At each station the company has offices, each of which is under a Superintendent, who attends to car service, freight, repairs for machines, supplies for camp, etc. Each of these offices is quite an establishment in itself and employs quite a few clerks, as from this point the entire business of a whole town (camp) receives attention. Returning to the subject: Leaving this particular field the writer was driven over a company road to "Camp No. 1." The company has in active operation five camps, each one of which is located upon an "island," called Island because it is solid ground, and upon which grow trees, while the surrounding country is water and decayed vegetable matter. Reaching "Camp No. 1," a most interesting sight met the writer's gaze. Immense sheds, in which were stored hundreds of machines used in harvesting wire grass; commodious stables, in which stood more big, heavy draft teams than the writer had ever seen under one roof; long, airy buildings, sleeping quarters for the men; long, open sheds, washroom for the men, and last but not least kitchens and messrooms. By the time the writer reached the messrooms he was ready for supper. "Camp No. 1" is an object lesson for any contractor whose contract calls for a great many men. There was an abundance of good beef, pork and beans, corn bread, biscuits, tea, coffee or milk, butter, potatoes, stewed currants and assorted cakes. Upon the writer complimenting the mess, the gentlemanly Camp Foreman explained that neither liquor nor cards were allowed in camp, in lieu of which they gave the men full stomachs.

"Camp No. 1" consists of forty wagons, several hundred machines, twenty-six dry sheds, several hundred horses and 240 men. The other camps are fully as large, and each camp has its own warehouse and offices located at the nearest railroad station, from which you will see that the large warehouse previously mentioned at the railroad station are badly needed. You will find that the Superintendents and clerks in charge of the offices previously mentioned at the railroad stations are busy people, as besides looking after the

shipping to St. Paul, receiving and forwarding camp supplies, they must also look after the maps, surveys, roads, telephones, etc., which they have made through this wilderness. Leaving "Camp No. 1," the writer was driven back over company road to the railroad station, there to take a late train for St. Paul. In this connection it is interesting to note that each of these railroad stations have recently become villages, with hotels, stores, shops, etc., to take care of overflow business not directly under the company's Superintendents' charge. Arriving at St. Paul, the writer took a good and much needed rest and 140 pickers. These pickers are the shape of our's forefinger and thumb, and as the wheel revolves each picker automatically opens and closes, picking up one straw, and as the wheel further revolves the pickers open and drop this straw on a carrier, each straw dropped within a few inches of the end of another straw, thus preventing broken joints. This large wheel revolves slow enough to drop sufficient straws to make the required size twice before the automatic carrier reaches a funnel-shaped end that sucks the straws through and twists them into twine.

When one realized that there are 240 of these large wheels and attachments in operation, you can readily understand the writer's remark, viz: "This is certainly the business end of creation." Leaving the twine mills, and with a further rest, the writer visited the company's harvester plant and here all desirable facilities fail. Suffice it to say that this plant gives employment to thousands upon thousands of well-paid mechanics, and covers acres and acres of ground. The capacity of this plant is 35,000 bales per year, to say nothing about the mowers and rakes. The company has three other large plants, but the writer did not visit them as his time was limited.

One thought that constantly recurred to the writer's mind and each time with renewed force was the patience, ability and financial backing required to perfect and market this product. We should remember that the Minnie Harvester Company sold no wire grass twine until after it had passed through all experimental stages covering a period of five years! Patience born of determination and backed by untold wealth could only accomplish the finale. Years ago, viewing the prospects of two million acres of wire grass which was utterly useless, they conceived an idea that it could be spun into twine to take the place of an expensive foreign product for binding wheat. They built roads to get to these lands, they built a system of drains to get the water off; they designed and built special machines to cut and gather the wire grass; they had special wire-grass wagons built to haul this grass; they built hundreds of sheds to store this grass which it went through the sweat; they built camp buildings for taking care of machines, men and beasts in the wilderness; they designed bog shoes to prevent teams from sinking in the mud after water was drained off; they designed machines for baling the grass; they built immense warehouses and offices at the nearest railroad stations to store the baled wire grass until cars could be furnished to transfer it to St. Paul; they designed machines for spinning wire grass into twine and located them in magnificent plants in St. Paul.

Grass twine was a success. Patience had conquered seeming impossibilities. Every obstacle had been met by an iron will, but even this perfect American product was offered to large manufacturers of harvesting machines, they declined to use the product, notwithstanding the fact that it was only one-half as expensive as the twine they were using. Did this trial win? No, there was never a quiver. They bought the Walter A. Wood Harvester Plant at St. Paul, admitted by all manufacturers to be the most complete harvester plant in the world, and designed, patented and built a binder of their own. Is this not an object lesson for us all? In free America, nothing is impossible! We may all be just what we desire to be. Patience and perseverance in the object sought for will win. From the wilderness have come an American product that can save American farmers \$10,000,000 annually! Is it any wonder we call her beautiful Minnie.

NERVOUS DYSPEPSIA ITS CAUSE AND CURE

Overwork any organ and it gives out—the stomach is no exception. Ask it to digest anything and everything, at any time in how the time required, and like an over driven horse, it balks. Nature intended the stomach should have regular hours. A time to work and a time to rest—and when you break up this habit you upset the whole arrangement. The stomach nerves become exhausted, the glands refuse to act, the food does not digest—lies heavy, ferments and repeats. There is pain, gas forms, bloating occurs, the heart becomes irregular and a nervous, irritable feeling sets in. This is nervous dyspepsia and Dr. A. W. Chase's Nerve Pills its cure.

Mr. J. L. Nicholson of No. 504 Limestone street, Maysville, Ky., says: "I was bothered with severe nervousness, sleeplessness, dizziness and indigestion. Hearing of Dr. A. W. Chase's Nerve Pills sold at Chenoweth's Drugstore, I decided to try a box. As a result my nervous system is in fine condition—I sleep well and am no longer bothered with those distressing dizzy spells—my appetite and digestion are fine and I feel generally vigorous. I can't recommend Dr. A. W. Chase's Nerve Pills too highly."

A GREAT TRUTH.

How It Has Spread from Home to Home in Maysville.

In every part of Maysville, in the homes of the wealthy, in the humble abode of the man of toil, 'tis now a well known fact, a great truth, that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. M. C. Chisholm of 343 East Second street says: "Mr. Chisholm speaks in high terms of Doan's Kidney Pills. He procured them at J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets, and their use proved them to be an effective kidney remedy. I have heard others express their appreciation of Doan's Kidney Pills. A medicine which cures kidney trouble is a most desirable one of which to know."

Catarth of the Stomach.
When the stomach is overloaded; when food is
taken into it that falls to digest, it decays and in-
flames the mucous membrane, exposing the nerves
and causing the glands to secrete mucus. Instead
of the natural juices of digestion. This is called
Catarth of the Stomach. For years I suffered
with Catarth of the Stomach, caused by indigestion.
Doctors and medicines failed to benefit me
until I used Kodol Dyspepsia Cure—J. R. Khea,

FALL IN VEGETABLES.

Dr. John A. Reed's Horse Mixed it
Up With Them Yesterday.

Yesterday afternoon Dr. John A. Reed left his
horse and buggy standing while he entered a
residence in West Fourth street to visit a
patient.

A man trimming a tree nearby threw the
branches to the ground.

The animal took fright and started down the
pike at a Maud S. gait.

Rounding the corner at Market and veering
over to the pavement the horse and buggy
came in contact with a telephone pole, upset-
ting the whole push.

The horse quickly regained its footing and
started in a beeline for Lovel's corner and the
wreck and havoc it created in the Colonel's
Friday market display of vegetables was a sight
to see.

The strangest part of all is that nobody was
hurt—usually that part of Market is full of
of children.

The Doctor informs us the horse and buggy
was not injured a particle.

Very Remarkable Cure of Diarrhoea.

"About 6 years ago for the first time in my life I
had a sudden and severe attack of diarrhoea,"
says Mrs. Alice Miller of Morgan, Texas. "I got
temporary relief, but it came back again and
again, and for six long years I have suffered more
misery and agony than I can tell. It was worse
than death. My husband spent hundreds of dol-
lars for physicians' prescriptions and treatment
without avail. Finally I moved to Hosque
county, our present home, and one day I happened
to see an advertisement of Chamberlain's Colic,
Cholera and Diarrhoea Remedy with a testimonial
of a man who had been cured by it. The case was
so similar to my own that I concluded to try the
remedy. The result was wonderful. I could
hardly realize that I was well again, or believe it
could be so after having suffered so long, but that
one bottle of medicine, costing but a few cents,
cured me." For sale by J. Jas. Wood & Son,

Spraying
Made
Easy!

We carry two styles of the Lowell
Sprayers. They are the handiest
devices ever invented for applying Paris
Green to tobacco and other plants.
One is an air pressure one that works
automatically; pump it up before you
start and then pressure of your thumb
controls it. Be sure to see these spray-
ers if you have not already inspected
them.

Special
Paris Green

The Deadly Trail

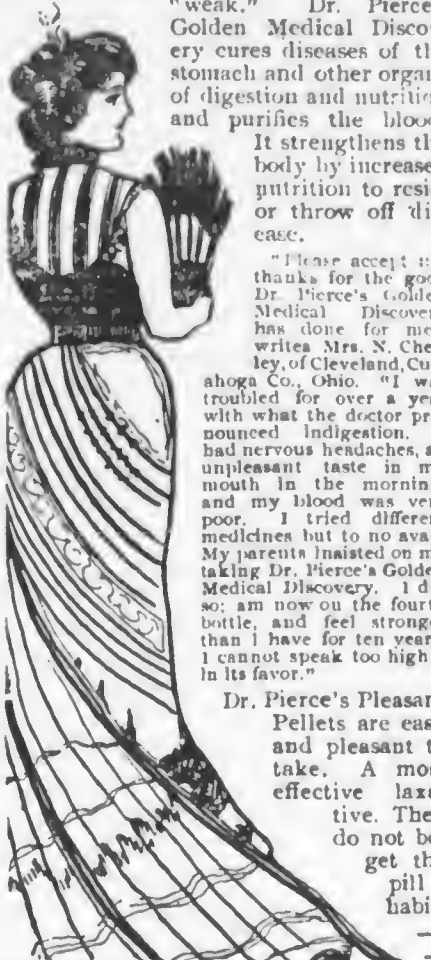

Of disease is often the trail marked by
a woman's gown. A recent investiga-
tion showed a horde of microbes, includ-
ing those of influenza, consumption and
a dozen other varieties, gathered in the
trail of a woman's dress.

The microbe is everywhere, but its
prey are the weak and feeble people
whose blood is "poor" and digestion
"weak." Dr. Pierce's
Golden Medical Discovery
cures diseases of the
stomach and other organs
of digestion and nutrition
and purifies the blood.

It strengthens the
body by increased
nutrition to resist
or throw off dis-
ease.

"I never accept my
thanks for the good
Dr. Pierce's Golden
Medical Discovery
has done for me,"
writes Mrs. N. Ches-
ley, of Cleveland, Oyo-
shog Co., Ohio. "I was
troubled for over a year
with what the doctor pro-
nounced indigestion. I
had nervous headaches, an
unpleasant taste in my
mouth in the morning,
and my blood was very
poor. I tried different
medicines but to no avail.
My parents insisted on my
taking Dr. Pierce's Golden
Medical Discovery. I did
so; am now on the fourth
bottle and feel stronger
than I have for ten years.
I cannot speak too highly
in its favor."

Dr. Pierce's Pleasant
Pellets are easy
and pleasant to
take. A most
effective laxa-
tive. They
do not be-
get the
pill habit.

WE HAVE

This day disposed of our drygoods business to Messrs. D. Hunt & Son,
after a business career of 84 years, and take this opportunity of thanking our
customers for their generous patronage, whose kindly associations will be long
remembered by us. Some of you have been our customers through three gen-
erations. It is a source of regret to us to break these ties. Through the gen-
erosity of the Messrs. Hunt we will have our office at the old stand until Au-
gust 1st, where settlements of accounts can be made. After that date all ac-
counts will be placed in the hands of a collector. We bespeak for the new
firm a generous share of your patronage. Very respectfully,

The Prices
Are All Right at Smith's.

There is something about the Hart, Schaffner & Marx Clothing by
which you may identify them even more certainly than the label. It goes
into them before the label. It is a style, a quality, a tailored-by-hand touch
to them, a harmony of fabrics, trimmings, etc., a thoroughbred look about
them never found in other clothing. The fact that we can't define it doesn't
make it any less real. You can see it without fully realizing what it is. We
can't show it or tell you fully about it until you wear the clothes. Then we
won't need to. This incomparable line is for men and confined to us.

But we have provided as well for the boys and children. We invite in-
spection and comparison of both goods and prices.

OUR MERCHANT TAILORING DEPARTMENT, under the super-
vision of Mr. Charles F. McNamara, is the only one in the city paying Union
prices and having all work done at home. Ask to see one of our made-to-
measure Suits. You can get them cheaper elsewhere, but not like ours.

Let us show you our new Shirts, new Hats, new Neckwear, etc., etc.

TALK!sss

Every drop of blood in the body passes through and is filtered by healthy kidneys every three minutes. Sound
kidneys strain out the impurities from the blood, diseased kidneys do not, hence you are sick. FOLEY'S KIDNEY
CURE makes the kidneys well so they will eliminate the poisons from the blood. It removes the cause of the
many diseases resulting from disordered kidneys which have allowed your whole system to become poisoned.

Rheumatism, Bad Blood, Gout, Gravel, Dropsy, Inflammation of the Bladder, Diabetes and Bright's Disease,
and many others, are all due to disordered kidneys. A simple test for Kidney disease is to set aside your urine
in a bottle or glass for twenty-four hours. If there is a sediment or a cloudy appearance, it indicates that your
kidneys are diseased, and unless something is done they become more and more affected until Bright's Disease
or Diabetes develops.

FOLEY'S KIDNEY CURE is the only preparation which will positively cure all forms of Kidney and
Bladder troubles, and cure you permanently. It is a safe remedy and certain in results.

If You are a sufferer, take FOLEY'S KIDNEY CURE at once. It will make you well.

Some Pronounced Incurable
Mr. G. A. Stillson, a merchant of Tampico, Ill., writes: "FOLEY'S
KIDNEY CURE is meeting with wonderful success. It has cured
some cases here that physicians pronounced incurable. I myself am
able to testify to its merits. My face today is a living picture of health
and FOLEY'S KIDNEY CURE has made it such."

Had Lumbago and Kidney Trouble
Edward Huss, a well known business man of Salisbury, Mo., writes:
"I wish to say for the benefit of others, that I was a sufferer from
lumbago and kidney trouble, and all the remedies I took gave me no
relief. I began to take FOLEY'S KIDNEY CURE, and after the use of
three bottles I am cured."

Every drop of blood in the body passes through and is filtered by healthy kidneys every three minutes. Sound
kidneys strain out the impurities from the blood, diseased kidneys do not, hence you are sick. FOLEY'S KIDNEY
CURE makes the kidneys well so they will eliminate the poisons from the blood. It removes the cause of the
many diseases resulting from disordered kidneys which have allowed your whole system to become poisoned.

Rheumatism, Bad Blood, Gout, Gravel, Dropsy, Inflammation of the Bladder, Diabetes and Bright's Disease,
and many others, are all due to disordered kidneys. A simple test for Kidney disease is to set aside your urine
in a bottle or glass for twenty-four hours. If there is a sediment or a cloudy appearance, it indicates that your
kidneys are diseased, and unless something is done they become more and more affected until Bright's Disease
or Diabetes develops.

FOLEY'S KIDNEY CURE is the only preparation which will positively cure all forms of Kidney and
Bladder troubles, and cure you permanently. It is a safe remedy and certain in results.

If You are a sufferer, take FOLEY'S KIDNEY CURE at once. It will make you well.

Some Pronounced Incurable
Mr. G. A. Stillson, a merchant of Tampico, Ill., writes: "FOLEY'S
KIDNEY CURE is meeting with wonderful success. It has cured
some cases here that physicians pronounced incurable. I myself am
able to testify to its merits. My face today is a living picture of health
and FOLEY'S KIDNEY CURE has made it such."

Had Lumbago and Kidney Trouble
Edward Huss, a well known business man of Salisbury, Mo., writes:
"I wish to say for the benefit of others, that I was a sufferer from
lumbago and kidney trouble, and all the remedies I took gave me no
relief. I began to take FOLEY'S KIDNEY CURE, and after the use of
three bottles I am cured."

Two Sizes, 50 Cents and \$1.00.

Correspondence

SPRINGDALE.

Mr. Jack Cobb spent from Saturday till Monday with friends at Rome, O.

A number of our citizens are attending the protracted meeting at Reeterville school house.

Mr. Joan Mason Doyle and Mrs. Matilda Craig of Lewis county were guests of friends here Wednesday.

Elder Gordon was here the first of the week and attended the meeting at Reeterville in company with Mr. C. C. Degman.

Railroads ties are becoming more and more valuable here. The prices have now reached 43 cents for good ones and 30 cents for seconds.

Mr. Andrew Wilson Smith of Chattanooga, Tenn., is a guest at Maplewood this week and taking snapshots of the attractive scenery thereabout.

Our little town very much regrets losing Mr. and Mrs. S. B. Tully as citizens. They leave for New Richmond, O., in a short time, Mr. Tully having been promoted by the C. and O. to the position of agent at that place.

No man or woman in the state will hesitate to speak well of Chamberlain's Stomach and Liver Tablets after once trying them. They always produce a pleasant movement of the bowels, improve the appetite and strengthen the digestion. For sale by J. Jas. Wood & Son, Druggists.

Mr. Burns Trigg will move his family back from Portsmouth.

Mr. Thornton Cox expects to move back to the country to make his home.

The First Presbyterian Church of Paris has called the Rev. J. S. VanMeter of New York.

Danville is suffering from a sugar famine. Never before in the history of the city has its entire population had to do without sugar.

Colonel Dan Peelf of Paris is engaged in taking a lot of Bourbon county tobacco pictures in the interest of the Kentucky exhibit at the World's Fair.

The property of C. H. White in the rear of Frank's clothing store, recently damaged by fire, is being rebuilt. When completed it will be an ideal place for a small manufactory.

The Misses Myall, Mrs. Collins and Miss Sallie Riley of Mayslick, Miss Maud M. Myall of California and Miss Lucile Knapp of Cincinnati were visiting in Aberdeen and Maysville yesterday, and called on THE LEDGER.

The Flemingsburg Quartette will give a benefit concert at the Courthouse in this city on Friday evening, July 24th. These young gentlemen have on several occasions favored our people with free entertainment, and now the time to show some appreciation of their courtesy.

NARROW ESCAPE!

A Couple of Ladies Have a Close Call Last Evening.

There came near being a serious accident last evening at the railroad crossing of the C. and O. at Third and Wood streets.

Mrs. Holt Richeson and Miss Lila Richeson were returning home from the residence of Mr. J. James Wood, and when about to pass over the crossing at this point a train on the Illinois backed up, striking one of the ladies on the arm and knocking the other to the ground.

Further than a bruised arm and a severe shock, they escaped injury, much to the gratification of their host of friends.

A Surgical Operation
Is always dangerous. Do not suffer from a surgeon's knife until you have tried Dr. Williams' Hazel Salve. It will cure when everything else fails. It has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many remedies, but obtained no relief until I used Dr. Williams' Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of the piles since.—H. A. Tidball, Sumner, S. C. For Blind, Bleeding, Itching and Protruding Piles no remedy equals Dr. Williams' Hazel Salve. Sold by J. Jas. Wood & Son.

A Wife and Mother

Should not be exposed to the schemes of self-styled financiers. So think a great many men who, instead of leaving their insurance in bulk to their widows, have counseled with The Mutual Life Insurance Company of New York, and adopted a course, which has eventuated in something like the plan of the late

Archibald N. Waterhouse, of Philadelphia, who died last Friday last and who left policies amounting to \$60,000 in The Mutual Life Insurance Company of New York. The assured lady, his widow, will receive at once \$20,000 in cash and an annual income of \$8,000 for twenty years, and if she is living at the end of that period she will receive \$60,000 in cash, making the total amount received under these policies \$140,000, in which the premiums paid by Mr. Waterhouse amounted to only \$27,492.50.

(From Philadelphia Record, Nov. 13, 1902.)
In writing for terms on similar policies, state what you would like to receive in cash at the end of the limited payment period, amount you would like your beneficiary to receive in event of your death, and give your age.
